Led various tech teams and managed many such events.

## **Anshuman Biswal: CDO**

Led various design teams and projects.

## **Abhishek Sharma: CTO**

Head of many technical projects and 2nd runner up of a Robotics hackathon.

## **Gaurav: CPO**

Developed many AI projects.

# Challenges in Modern Healthcare

- Inequitable access
- Uneven outcomes
- Growing demand from aging populations.

# Solutions & USP's

MediSynch aims to provide all scattered services available online at a single platform +

- Ambulance
- Online Platform
- Book Appointment
- Remote Consultation
- Lab Test

# | Why US?

***Vision: To make health care  
"As easy as Instagram".***

***Mission: To MODERNIZE healthcare in INDIA.***

- MediSynch provides standardized doctor patient information delivery.
- We use existing technology and implement it at the right place to optimize the healthcare experience and make it intuitive.
- We envision ourselves being the holistic solution of healthcare for every individual human being.

# Technology Overview

MediSynch employs a variety of technologies to provide a comprehensive and integrated healthcare platform. Here's an overview of the technologies used:

- **Cloud Computing** : Centralized Data Storage.
- **Cloud-Based Information Delivery** : Replaces traditional paperwork with digital data management and scheduling.
- **Artificial Intelligence (AI)** : Data Analytics , AI-Assisted Diagnosis , AI in Scheduling .
- **Telemedicine** : Enables remote consultations with healthcare professionals through a secure interface.
- **Internet of Things (IoT)** : Lifestyle Gadget Support Integration with health-tracking devices (e.g., wearables) for continuous monitoring and data collection .
- **Machine Learning** : Predictive Analytics , Personalized Recommendations .

# Competitor Analysis

<u>Competitor Name</u>	<u>Traction</u>	<u>Funding</u>	<u>Competitor Strength</u>	<u>Competitor Weakness</u>
Netmeds	Estimated \$250 million in revenue (2023)	Acquired by Reliance Industries for \$83 million in 2020	Strong e-commerce presence, extensive range of pharmaceuticals, partnership with Reliance Industries.	Intense competition in online pharmacy, regulatory compliance challenges, dependency on logistics.
PharmEasy	Estimated \$1 billion in revenue (2023)	\$1.4 billion total funding;	Market leader in online pharmacy, comprehensive healthcare offerings, strong brand recognition, successful mergers and acquisitions (e.g., Medlife).	Regulatory challenges in online pharmacy, intense competition, high customer acquisition costs.
1mg (Tata 1mg)	Estimated \$200 million in revenue (2023)	Acquired by Tata Digital in 2021 for \$220 million	Backed by Tata Group, strong presence in diagnostics and online pharmacy, extensive healthcare content and user base.	Competition from other online healthcare platforms, regulatory compliance, operational challenges in scaling.

# Market Analysis

**\$ 6.89 B**

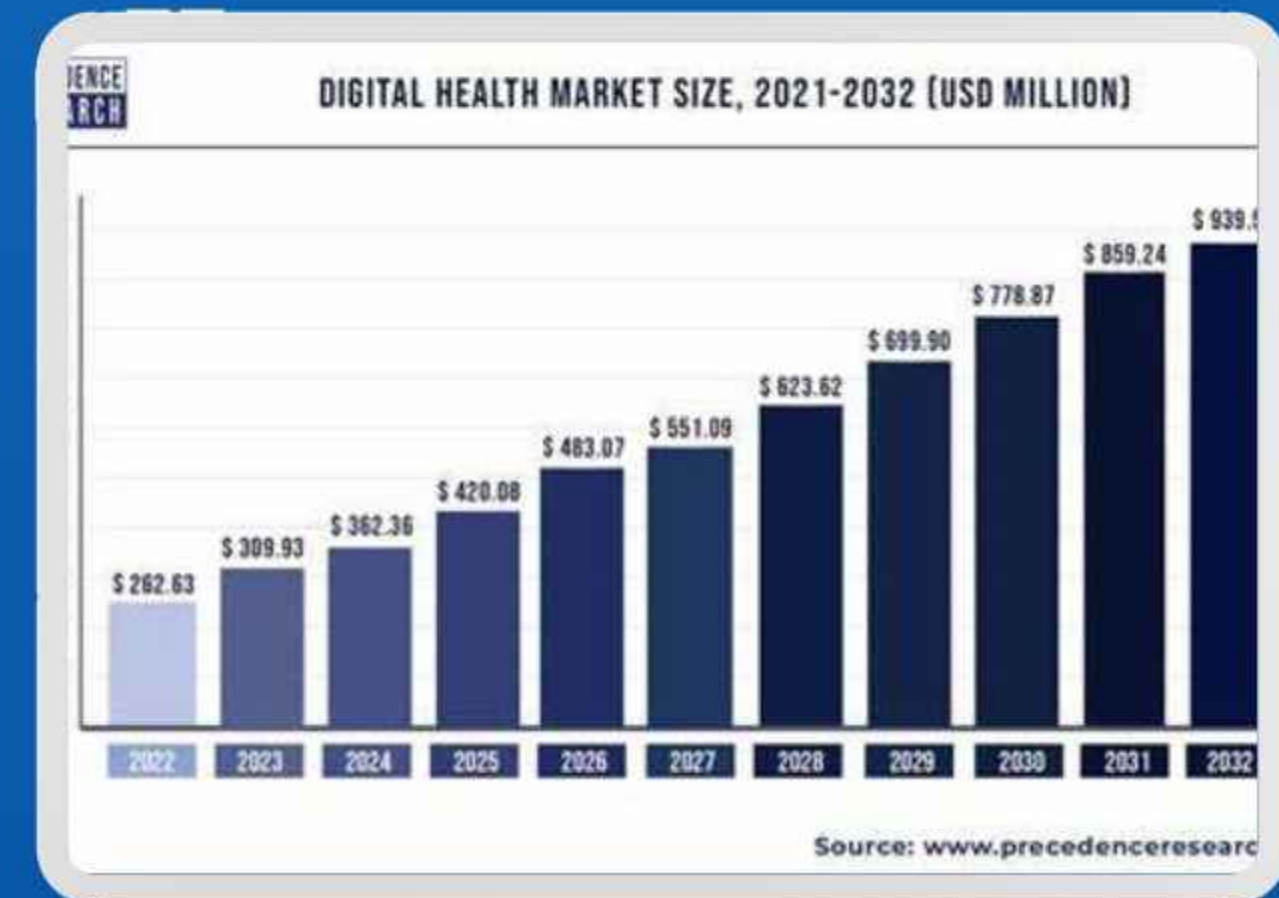

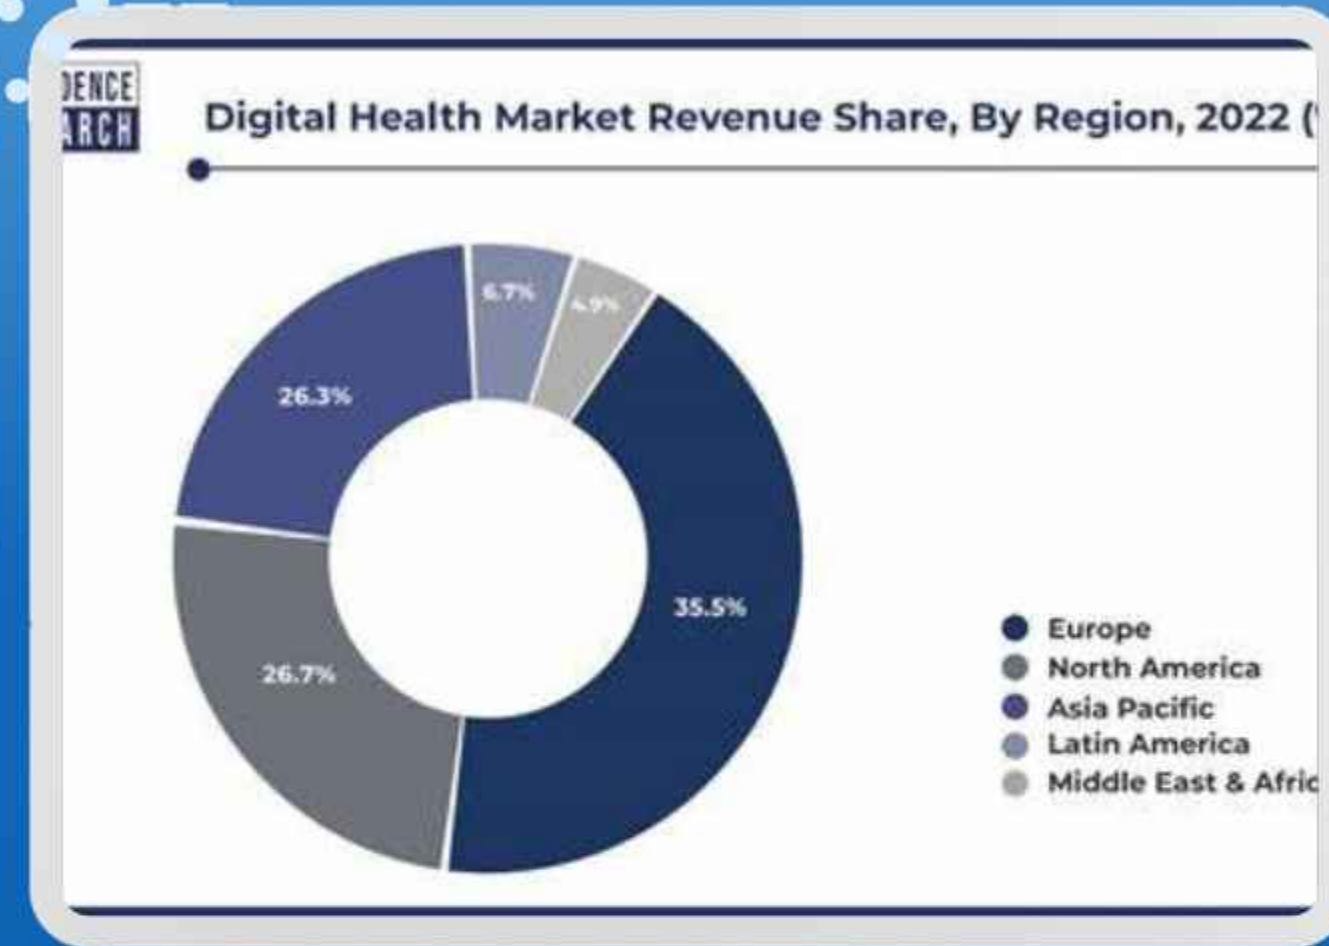

Market size (Base Year)

**\$ 50.94 B**

Market size (Forecast Year)

**21.9%**

CAGR (2024-2030)

# Business Model

## Subscription

- Annual Subscription
- Quaterly Subscription
- Monthly Subscription

## Star Subscription

- For Gynacologist
- Family Subscription

## Revenue

- Generated based on Lead Generation of building agencies
- Reccomending allied products to the Consumer

# Funding Needs, Use of Funds & Proposed Valuation

**Funding need: 2 lakh**

## **Uses of Fund:**

- Technology Purpose:
  - Server hosting, domain
  - Cloud Service
- Marketing Purpose:
  - Online Avertisemewnt
  - Campaign

## **Proposed Valuation:**

Proposed Valuation -25 Lakh

## **Current Equity:**

Bootstrapping

A blue-tinted photograph of a modern office hallway. The hallway is long and narrow, with large windows on both sides. The ceiling is white with recessed lighting. In the background, several people are visible, some standing and some sitting. The overall atmosphere is professional and clean.

**Thank You**
